2. Outhouse must be a minimum of nine (9) square feet at its base, and a maximum overall width not to exceed six (6) feet (including grasping and/or pushing devices). A minimum height of five (5) feet from the floor to the highest point of the roof.
3. Any number and size of wheels may be used.
4. Any device for grasping (to move) the outhouse may be used except ropes (or like materials/devices). All grasping devices must be secured solid to the outhouse.
5. Outhouse may be built of any solid material, and structurally sound enough not to fall apart during the race.
6. No glass may be used.
7. Each outhouse must have a "name". The name is to be displayed on each side of the outhouse (also front and back display is allowed). Sponsors names may be applied anywhere on the outside of the outhouse.
8. There must be a half moon somewhere on the structure and a roll of toilet paper attached somewhere.
9. All outhouses must be human-powered only.

RACE DETAILS:

2. Teams will race west to halfway between the start and mid-point of the course to the toilet paper station. The rider will exit the outhouse and wrap the toilet paper from their toilet paper holder in the outhouse around the outhouse clockwise and re-enter the outhouse without breaking the paper. If the paper breaks, the rider will repeat the process until completed without breaking. The team may assist the rider with this challenge.
3. Teams will race 200 feet west to the race mid-point where the rider will exit the outhouse and retrieve a single corn cob from a muck bucket. The muck bucket will also be filled with various fruits/vegetables and wet cracked corn. **Note:** It is suggested that the rider dress appropriately for searching in the muck bucket for the corn cob (short sleeves suggested).
4. While the rider is retrieving the corn cob the rest of the team turns the outhouse around, lining up the front of the outhouse on the midpoint line, facing toward the start/finish line.
5. Once the rider has retrieved the corn cob, the rider will re-enter the outhouse with the corn cob and the team will proceed to the start/finish line.

WINNERS:

1. Two teams will run in each timed heat.
2. The clock will stop when the front of the actual outhouse (doorway) crosses the finish line.
3. The best times will be awarded 1st, 2nd, and 3rd place prizes.
